Phase 1	Cat Characters — Emotes & Animati	Accusing someone	Animation	Needs Revision	08/19/2026	07/19/2026		I think this can be clearer with some furrowed brows
Phase 1	Cat Characters — Emotes & Animati	Crying	Animation	Needs Revision	08/19/2026	07/19/2026		Need the water particles
Phase 1	Cat Characters — Emotes & Animati	Waving	Animation	Validated	08/19/2026	06/03/2026	Y	Finished
Phase 1	Cat Characters — Emotes & Animati	Cat chaining	Animation	Needs Revision	08/19/2026	07/19/2026		Right! For this one, I quite like the idea you suggested, and here are the changes: The cat starts upright, in a normal position. It begins to rise slightly, then suddenly flips horizontally and rises to the centre of the table, just as you did; then chains appear around it (from the sky on both sides), and it returns to its place, chained, with its arms bound. The chained cats should be their default pose. As if the chains were actually part of the cats' skins. And when you're chained up and try to do an emote, it simply replays the animation of the cat struggling against its chains right where you are (like the one when it's in the air, but with its arms chained to its body this time).
Phase 1	Cat Characters — Emotes & Animati	Picking up the tablet	Animation	Not Started	08/19/2026	07/19/2026		(In 'Corrupted', players have tables on which to note down their estimates.) The cat pulls its tablet out from under the table and stares at it; as long as the player keeps their cursor on the tablet, the animation continues, so only the cat moves, nodding its head slightly in a loop, followed by an animation as it puts the tablet away and returns to its default pose.
